POSITION SUMMARY

The primary role of the Mental Health Clinician is to work within a multidisciplinary team providing early intervention mental health support to young people aged 12-25 years.

This position will deliver evidence-based short-term psychological interventions to young people with mild to moderate mental health issues. These services will be guided by the [clinical staging model](#) for early intervention youth mental health services. This will include conducting assessments and developing care plans in conjunction with the young person and identified family, friends and professionals. The role will also include care coordination support to young people, facilitation of groups, and community engagement work.

The Mental Health Clinician will collaborate with other staff and agencies to ensure a holistic approach to the young person's care. The Mental Health Clinician will ensure that young people have pathways to access to a range of services relevant to their health, housing, social and developmental needs.

We are looking for enthusiastic and optimistic applicants that are passionate about working with young people, responsive, and intent on providing positive outcomes for young people, their family and friends.
