# About Swan Hill District Health

WE EXIST TO PROVIDE: CONNECTED CARE, BEST EXPERIENCE

OUR PURPOSE IS:

<p>Priority one:</p> <p><i>Delivering services that make a positive difference</i></p> <p>The healthcare needs of our community are met by providing appropriate, safe, high quality healthcare experiences whilst maximising available resources and delivering services within budget.</p>	<p>Priority two:</p> <p><i>Building a leading culture</i></p> <p>The right quantity; quality and skill mix of our workforce is matched to service delivery for the community needs.</p>	<p>Priority three:</p> <p><i>Working together for improved performance</i></p> <p>Effective partnerships improve community outcomes, effectiveness and efficiency of the health services and sub-regional performance.</p>	<p>Priority four:</p> <p><i>Creating environments for individuals to thrive</i></p> <p>Virtual and physical environments support high quality, safe work practices, care environments and performance.</p>
--	---	--	--

OUR VALUES ARE:

**INCLUSIVE**

We provide an experience that welcomes and values everyone

**COMPASSIONATE**

We respond to our people with understanding, empathy and kindness.

**PROGRESSIVE**

We continue to strive for the best experience outcomes.

**ACCOUNTABLE**

We personally commit to taking responsibility for all of our decisions and actions.

# BOARD CHAIR AND CHIEF EXECUTIVE OFFICER REPORT

Along with many of our counterparts in health and aged care services, this past year has been one of many significant challenges brought about by what we hope to be, a once in a lifetime pandemic.

Throughout the past year, Swan Hill District Health (SHDH) has committed to meeting the health care needs and service demands of the community through the provision of effective and high quality health services that achieve broad and effective health outcomes for our catchment community.

SHDH has an “experienced” led approach to the provision of care and services through the development of key core values that supports the community’s expectations. The values of compassion, accountability, inclusion and progress underpin our approach to the delivery of safe, effective and holistic care.

This past year, SHDH has been challenged to provide strong leadership and commitment to the pandemic COVID response. Protecting the community from COVID has been, and continues to be a priority of our team. The Board is proud of the efforts of our local health service’s response and also, in its support of our neighbouring health services in our local regional area.

We have continued to strengthen our governance systems, and further consolidated our strong partnerships with our neighbouring regional health services to deliver a shared services approach to care. In considering its future strategic direction, the Board has worked to develop its future strategy based around our purpose to provide our community with a connected care experience designed to deliver the best experience possible.

The Board has a focus on the key governing areas of quality care outcomes in a safe environment for our community, financial sustainability and growth, risk management, and community and cultural engagement. Board subcommittee functions are aligned with the strategic direction of SHDH.

Through the pandemic, SHDH has continued its focus in ensuring that the quality & safety processes that oversee our clinical care services are robust and effective in their review and ongoing provision of care. This is achieved through such initiatives as an external clinical service review program; the setting of tolerance and control measures for key performance indicators reporting through the clinical governance dashboard, and the use of patient

stories of their experience to improve the care and services we provide.

This year, we were pleased to be able to welcome the National Standards on Safety & Quality in Healthcare review team who undertook a comprehensive accreditation survey. At this survey, SHDH achieved full compliance with all 10 national standards with no recommendations for improvement forthcoming.

The Board is committed to a strong model of stewardship, undertakes an annual formal assessment, and has implemented a strong focus on continuing education to ensure effective Board governance processes are achieved.

This year, the Board farewelled one member in Emma Liepa who contributed strong leadership and support to the Board over many years.

On behalf of the Board, we wish to congratulate and sincerely thank Emma for her dedication and commitment to SHDH.

The Board also acknowledges the contribution of community member, Warren Pollock in the role of Independent member of the Corporate Governance Committee. Warren has recently resigned this role after many years of service. Independent and community members play an important role in the provision of effective care and can contribute in many ways. The Board is seeking any interested person to come forward and take up one of these important positions. The Board remain highly appreciative of the many volunteers, who contribute their valuable time to support health service provision. SHDH acknowledges that it has been an exceptionally difficult time for volunteers due to the COVID restrictions on visiting our services and sincerely wish to thank them for both their patience and also for their ongoing commitment to our services.

We acknowledge the Swan Hill District Health Ladies Auxiliary for not only their continued financial support of SHDH, but also their contribution to the continued success of the Op Shop. Also recognised is the work of the Hospice Committee and the many other community groups who contribute and donate to SHDH in support.

This past year, SHDH received the wonderful and long awaited news of a funding allocation of \$18.7M from the State Government which, together with the Commonwealth funding allocation of \$30M for a new Swan Hill Hospital development has enabled

# BOARD CHAIR AND CHIEF EXECUTIVE OFFICER REPORT

the commencement of the new Emergency Department development to be completed in early 2023.

SHDH wishes to acknowledge the support it has received from the Minister for Health, the Department of Health team and the Commonwealth Department of Health & Aged Care in supporting the ongoing development of SHDH. The Board also acknowledges the support provided by Therese Tierney as the Ministers delegate to SHDH to May 2021.

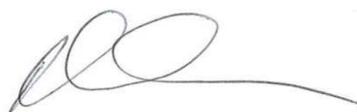

We wish to recognise the management group and all staff for their dedication and commitment to the ongoing success of our services and consistently working towards SHDH's objectives.

The Board has continued its focus of supporting the future recruitment and retention of a local competent and experienced clinical workforce to support the complex care needs of the broader Mallee community and to continue to support the provision of safe and effective care at all times. SHDH wishes to acknowledge the dedication and commitment of local and visiting medical, clinical and ancillary practitioners.

We acknowledge that the communities served by SHDH are located on the traditional land of the Latji Latji, Tati Tati, Wamba Wamba, Barapa Barapa and the Wadi Wadi clans. We pay our respects to elders both past and present and thank them for their contribution to the development of our services. We also acknowledge other many diverse cultures that make up our community. SHDH is committed to Closing the Gap between the health outcomes and life expectancy of the Aboriginal and Torres Strait Islander people.

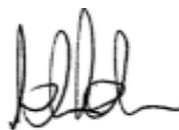

In closing, we wish to acknowledge the dedication and commitment of the entire SHDH team and the support of the community in its response to the pandemic related to COVID-19, in keeping both the community and our staff safe and for their outstanding effort of vaccinating our community to keep them protected.

The SHDH team have and continue to do an outstanding job.

Peter Abraham  
Chief Executive Officer  
Swan Hill District Health

In accordance with the Financial Management Act 1994, I am pleased to present the report of operations for Swan Hill District Health for the year ending 30 June 2021.

Andrew Gilchrist

0.949m	0.361m	0	0.361m

## FREEDOM OF INFORMATION

Freedom of information is the means whereby people may obtain access to information not normally available to them, in accordance with the terms of the Freedom of Information Act 1982.

The Principal Officer under the Act is the Chief Executive Officer; the authorised Freedom of Information Manager is the Director of Medical Services.

The public may seek access to any documents and records held by Swan Hill District Health by making a written request to the Freedom of Information Manager.

This year 156 requests for information were received which related to personal documents.

## BUILDING AND MAINTENANCE

Swan Hill District Health complies with the Building Act 1993.

## PUBLIC INTEREST DISCLOSURE ACT 2012

Under the Act (Clause 70 'Annual report by public bodies that are not investigating entities') 'health services must include:

- information about how to access the procedures established by the public body under Part 9; and
- in the case of a public body that can receive disclosures made in accordance with Part 2—the number of disclosures notified to the IBAC under section 21(2) during the financial year.

## NATIONAL COMPETITION POLICY

SHDH complies with the building and maintenance provisions of the Building Act 1993, inclusive of the relevant provisions in the National Construction Code. All SHDH facilities maintain essential safety measures, maintenance and fire safety audits.

# REPORT OF OPERATIONS

## CARERS RECOGNITION ACT 2012

Swan Hill District Health takes all practicable measures to ensure that its employees, agents and persons who are in care relationships receiving services have an awareness and understanding of the care relationship principles. We reflect the care relationship principles in developing, providing or evaluating support and assistance for persons in care relationships.

## SAFE PATIENT CARE ACT 2015

Swan Hill District Health has nil reports in relation to its obligations under section 40 of the Safe Patient Care Act 2015.

## LOCAL JOBS FIRST

Swan Hill District Health acknowledges it is required to abide by the principles of the Victorian Industry Participation Policy Act 2003 (VIPP). In 2019/20 there were no projects commenced to which the VIPP applies. To ensure that all requirements are in place that assures compliance to the VIPP policy requirements, Swan Hill District Health has:

- Delegated the Swan Hill District Health Procurement Team the responsibility for Registration of future projects requiring ICN registration.
- VIPP requirements and statements are incorporated as part of our RFT documents
- Swan Hill District Health has a nominated VIPP Authorised Administrator to ensure future Projects over \$1 million are appropriately captured and compliant with VIPP guidelines and requirements.

## OCCUPATIONAL HEALTH AND SAFETY

Swan Hill District Health is committed to ensuring the health, safety and welfare of its visitors, patients and staff and maintains its responsibilities under the Occupational Health and Safety Act 2004 (Vic). And subsequent Regulations. SHDH takes proactive measures to identify and implement mitigation strategies to reduce the risk of injury in consultation with employees, managers and other relevant consumers.

	2020-21	2019-20	2018-19
Number of Reported Hazards / Incidents for the year per 100 FTE	30	32	24

	2020-21	2019-20	2018-19
Number of Lost Time Standard Claims for the year per 100 FTE	0.43	0.66	0.23
Average Cost per Work Cover Claim for the year	\$25,074	\$25,815	\$266962

## OCCUPATIONAL VIOLENCE

Occupational Violence Statistics	2020/2021
Work cover accepted claims with an occupational violence cause per 100 FTE	0.21
Number of accepted work cover claims with lost time injury with an occupational violence cause per 1,000,000 hours worked	1.09
Number of occupational violence incidents reported	190
Number of occupational violence incidents reported per 100 FTE	40.04
Percentage of occupational violence incidents resulting in a staff injury, illness or condition	1.58%

### Definitions of occupational violence

- **Occupational violence** – any incident where an employee is abused, threatened or assaulted in circumstances arising out of, or in the course of their employment.
- **Incident** – an event or circumstance that could have resulted in, or did result in, harm to an employee. Incidents of all severity rating must be included. Code Grey reporting is not included, however, if an incident occurs during the course of a planned or unplanned Code Grey, the incident must be included.
- **Accepted WorkCover claims** – accepted WorkCover claims that were lodged in 2020-21.
- **Lost time** – is defined as greater than one day.
- **Injury, illness or condition** – this includes all reported harm as a result of the incident, regardless of whether the employee required time off work or submitted a claim.

# REPORT OF OPERATIONS

## GENDER EQUALITY

Swan Hill District Health articulates and supports the principles of diversity and equality in all aspects of our business and operations. Our commitment to this standard as stipulated in the Gender Equality Act 2020 has been demonstrative in our attention to setting progress targets for implementation which has a positive impact upon the diversity and inclusion and positive discrimination to remove gender bias and create sustainable improvement in gender representation from traditional disadvantaged groups.

Our strategy includes:

1. Creating a workforce plan and action plan inclusive within an organisational development plan and **people plan 2021-2024 called "Better Together"** which creates a sustainable environment improving results.
2. We are establishing a diversity and inclusion committee within the workplace and within that agenda is a focus upon gender equality and promotion of gender disadvantaged. This is to be achieved by December 2021.
3. The People and Culture Operations Manager and Health Promotion are

actively involved in the Community and we participate on the community diversity and inclusion committee harmonising strategies between SHDH and the community in order to maximise results.

4. The internal committee will establish key performance indicators for success and employee satisfaction in this area will be measured through employee opinion surveys.
5. A series of swot analysis is being conducted through July 2021 to identify barriers to success and to establish strategy minimising the risk of failure with the measurement of workforce data with qualitative and quantitative data.

## LEADERSHIP AND ACCOUNTABILITY (REQUIREMENTS 1-19)

Swan Hill District Health has met its target maturity level under most requirements within this category.

Swan Hill District Health did not comply with some requirements in the areas of monitoring asset performance and system performance. There is no material non-compliance reported in this category. A plan for improvement is in place to improve Swan Hill District Health's maturity rating in these areas.

## PLANNING (REQUIREMENTS 20-23)

Swan Hill District Health has met its target maturity level in this category.

## ACQUISITION (REQUIREMENTS 24 AND 25)

Swan Hill District Health has met its target maturity level in this category.

## OPERATION (REQUIREMENTS 26-40)

Swan Hill District Health has met its target maturity level under most requirements within this category. Swan Hill District Health did not comply with some requirements in the areas information management. Swan Hill District Health is developing a plan for improvement to establish processes to proactively improve on information areas.

## DISPOSAL (REQUIREMENT 41)

Swan Hill District Health has met its target maturity level in this category.

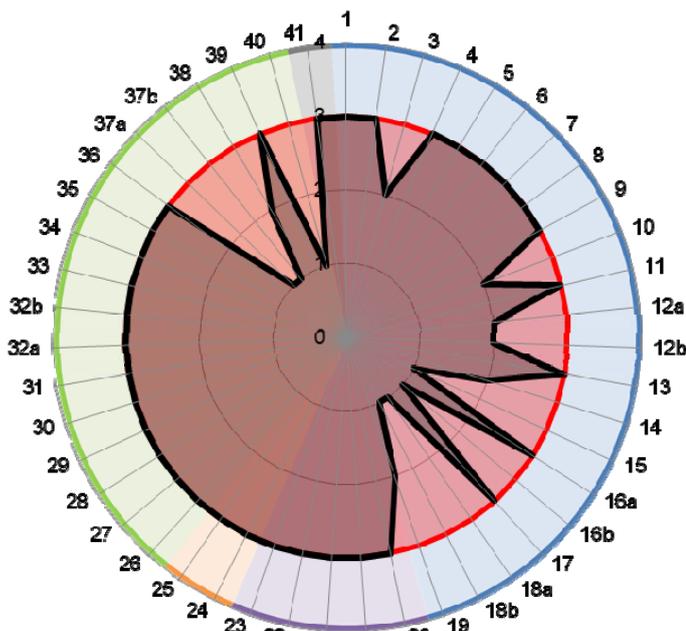

# REPORT OF OPERATIONS

## ASSET MANAGEMENT ACCOUNTABILITY FRAMEWORK

The following sections summarise Swan Hill District Health assessment of maturity against the requirements of the Asset Management Accountability Framework (AMAF). The AMAF is a non-prescriptive, devolved accountability model of asset management that requires compliance with 41 mandatory requirements. These requirements can be found on the DTF website

<https://www.dtf.vic.gov.au/infrastructure-investment/asset-management-accountability-framework>

Swan Hill District Health target maturity rating is 'competence', meaning systems and processes fully in place, consistently applied and systematically meeting the AMAF requirement, including a continuous improvement process to expand system performance above AMAF minimum requirements.

# REPORT OF OPERATIONS

## CORPORATE GOVERNANCE COMMITTEE

(As from March 2021)

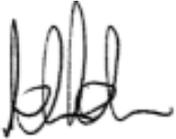

(Formerly Audit & Resources Committee)

This Committee provides independent and objective appraisal on the organisations operation:-

Warren Pollock (Independent Member)  
Janice Kelly, Chair  
Greg Kuchel  
Julie Wiggins  
Claris Bourne

## FINANCIAL MANAGEMENT COMPLIANCE ATTESTATION

I, Andrew Gilchrist on behalf of the Responsible Body, certify that Swan Hill District Health has no Material Compliance Deficiency with respect to the applicable Standing Directions under the Financial Management Act 1994 and Instructions.

**Andrew Gilchrist**  
**Accountable Officer**

## DATA INTEGRITY

I, Peter Abraham certify that Swan Hill District Health has put it place appropriate internal controls and processes to ensure that reported data accurately reflects actual performance. Swan Hill District Health has critically reviewed these controls and processes during the year.

**Peter Abraham**  
**Accountable Officer**

## INTEGRITY, FRAUD AND CORRUPTION

I, Peter Abraham certify that Swan Hill District Health has put in place appropriate internal controls and processes to ensure that Integrity, fraud and corruption risks have been reviewed and addressed at Swan Hill District Health during the year.

**Peter Abraham**  
**Accountable Officer**

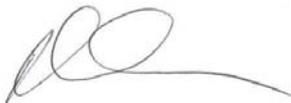

# REPORT OF OPERATIONS

## CONFLICT OF INTEREST

I, Peter Abraham certify that Swan Hill District Health has put in place appropriate internal controls and processes to ensure that it has complied with the requirements of hospital circular 07/2017.

Compliance reporting in health portfolio entities (Revised) and has implemented a 'Conflict of Interest' policy consistent with the minimum accountabilities required by the VPSC.

Declaration of private interest forms have been completed by all executive staff within Swan Hill District Health and members of the board, and all declared conflicts have been addressed and are being managed. Conflict of interest is a standard agenda item for declaration and documenting at each executive board meeting.

**Peter Abraham**  
**Accountable Officer**

## ADDITIONAL INFORMATION

**Consistent with FRD22I (Section 5.19)**, details in respect of the items listed below have been retained by the health service and are available to the relevant Ministers, Members of Parliament and the public on request (subject to the freedom of information requirements, if applicable):

Declarations of pecuniary interests have been duly completed by all relevant officers;

Details of shares held by senior officers as nominee or held beneficially;

Details of publications produced by the entity about itself, including annual Aboriginal cultural safety reports and plans, and how these can be obtained.

Details of changes in prices, fees, charges, rates and levies charged by the Health Service;

Details of any major external reviews carried out on the Health Service;

Details of major research and development activities undertaken by the Health Service that are not otherwise covered either in the report of operations or in a document that contains the financial statements and report of operations;

Details of overseas visits undertaken including a summary of the objectives and outcomes of each visit;

Details of major promotional, public relations and marketing activities undertaken by the Health Service to develop community awareness of the Health Service and its services;

Details of assessments and measures undertaken to improve the occupational health and safety of employees;

A general statement on industrial relations within the Health Service and details of time lost through industrial accidents and disputes, which is not otherwise detailed in the report of operations;

A list of major committees sponsored by the Health Service, including any Aboriginal advisory or governance committees, the purposes of each committee and the extent to which those purposes have been achieved.

Details of all consultancies and contractors including consultants/contractors engaged, services provided, and expenditure committed for each engagement.

# Disclosure Index

The annual report of Swan Hill District Health is prepared in accordance with all relevant Victorian legislation. This index has been prepared to facilitate identification of the Department's compliance with statutory disclosure requirements.

# Reporting of outcomes from the Statement of Priorities 2020-21 PART A

Strategic Priorities	SHDH Strategy and Outcome
<p>Maintain a robust COVID-19 readiness and response which includes testing for community and staff and the vaccine immunisation program rollout.</p>	<p>Swan Hill District Health has a well-developed Pandemic Management Plan that has undergone rigorous review and scenario testing. SHD has conducted COVID-19 screening tests and vaccinations across two sites in Swan Hill and Kerang throughout the reporting period. SHDH has provided strong support to its sub regional and regional partners in responding effectively to COVID.</p>
<p>Engage with your community to address the needs of patients, especially our vulnerable Victorians whose care has been delayed due to the pandemic and provide the necessary “catch-up” care to support them to get back on track.</p>	<p>Strong focus on accessing telehealth across primary and community care programs during lock downs. High Risk Accommodation Housing vaccination and support programs implemented to support at risk, vulnerable people. Targeted COVID and vaccination awareness and promotion program led by the SHDH Refugee Health and Health promotion undertaken in the CALD, Refugee and Asylum Seeker populations.  Youth Mental health awareness program delivered through headspace Swan Hill.  The Loddon Mallee Health Network (LMHN) are leading the cluster implementation of the Elective Surgery Blitz and Better at Home Initiative. Both funding sources have enabled SHDH to increase theatre patients were operated on in 2020-21), Hospital In The Home (HITH) and Complex Care activity enabling more people with chronic conditions to receive timely access to care.</p>
<p>As providers of care, respond to the recommendations of the Royal Commission into Victoria’s Mental Health system and the Royal Commission into Aged Care Quality and Safety.</p>	<p>SHDH is the lead agency for headspace Swan Hill. Strong partnership developed with Bendigo Health Community Mental Health team based in Swan Hill to better support patients with mental health conditions presenting to the ED. Establishment of a Mental Health Practitioner position in the SHDH Primary Care Medical Centre and a Drug and Alcohol Nurse Practitioner who provides support across all SHDH service areas. Frontline worker completion of Mental Health First Aid training completed.  The Board Clinical Governance Committee reviews the Aged Care clinical governance indicator suite bi-monthly. Logon Lodge and Jacaranda Lodge Residential Aged care facilities have introduced the SIRS (Serious Incident Response Scheme). Process have been reviewed to ensure that we meet the additional reporting requirements with My Aged Care, NDIS Commission, VICNISS including the appointment of Infection Control champions across both facilities. A new Director of Nursing position has been appointed to oversee both sites. Facility building and equipment upgrades have also been completed across both sites</p>

Strategic Priorities	SHDH Strategy and Outcome
<p>Develop and foster your local health partner relationships, which have been strengthened during the pandemic response, to continue delivering collaborative approaches to planning, procurement and service delivery at scale. This extends to prioritising innovative ways to deliver health care through shared expertise and workforce models, virtual care, co-commissioning services and surgical outpatient reform to deliver improved patient care through greater integration.</p>	<p>The SHDH CEO is a Board member of the Loddon Mallee Health Network (LMHN) and Chair of the LMHN Quality &amp; Safety Committee.</p> <p>The SHDH Director of Clinical Care is the Chair of the LM Regional Director of Clinical Services.</p> <p>The SHDH Director of Corporate Business supports sub regional procurement activity and provides corporate support to Kerang District Health.</p> <p>SHDH is an active member of the Murray Health and the Mallee Health Partnership.</p> <p>SHDH has committed resources to the regional staff furloughing plan supporting both the Mildura and the Echuca communities.</p> <p>SHDH provides outreach Specialist Geriatrician services to Kerang District Health, Cohuna District Hospital and Mallee &amp; District Aboriginal Service. An outreach model of Pharmacy support has been developed for Kerang District Health.</p>
<p>Initiatives to support Aboriginal Cultural Safety</p>	<p>The SHDH Aboriginal Reconciliation Action Plan was developed by the Aboriginal Health Committee and adopted by the Community &amp; Cultural Advisory Committee</p> <p>A Cultural awareness eLearning module has been introduced with 65% of all employees having completed the modules.</p> <p>An Aboriginal Health Manager role has been initiated.</p> <p>SHDH engaged in the NAIDOC week celebrations and new art work for key SHDH service areas procured.</p> <p>CEO is chair of the LM improving Aboriginal Cultural Safety in Health Services Committee.</p>

## PART B – Key 2020-21 Performance Priorities

<b>High quality and safe care</b>		
<b>Key performance measure</b>	<b>Target</b>	<b>Outcome</b>
<b>Infection prevention and control</b>		
Compliance with the Hand Hygiene Australia program	83%	87.9%
Percentage of healthcare workers immunised for influenza	90%	98%
<b>Patient experience</b>		
Victorian Healthcare Experience Survey – percentage of positive patient experience responses	95%	No Surveys conducted in 2020-2021
Victorian Healthcare Experience Survey – percentage of very positive responses to questions on discharge care	75%	No Surveys conducted in 2020-2021
<b>Maternity and Newborn</b>		
Rate of singleton term infants without birth anomalies with APGAR score <7 to 5 minutes	≤ 1.4%	0.7%
Rate of severe fetal growth restriction (FGR) in singleton pregnancy undelivered by 40 weeks	≤ 28.6%	0.0%
<b>Continuing Care</b>		
Functional independence gain from an episode of rehabilitation admission to discharge relative to length of stay	≥ 0.645	1.480

<b>Timely access to care</b>		
<b>Key performance measure</b>	<b>Target</b>	<b>Outcome</b>
<b>Emergency care</b>		
Percentage of patients transferred from ambulance to emergency department within 40 minutes	90%	99%
Percentage of Triage Category 1 emergency patients seen immediately	100%	100%
Percentage of Triage Category 1 to 5 emergency patients seen within clinically recommended time	80%	94%
Percentage of emergency patients with a length of stay in the emergency department of less than four hours	81%	85%
Number of patients with a length of stay in the emergency department greater than 24 hours	0	1
<b>Specialist clinics</b>		
Percentage of urgent patients referred by a GP or external specialist who attended a first appointment within 30 days	100%	100%

# SWAN HILL DISTRICT HEALTH

## PART B – Key 2020-21 Performance Priorities

Effective financial management		
Key performance measure	Target	2020-21 result
Operating result (\$m)	0.000	0.000
Average number of days to pay trade creditors	60 days	20 days
Average number of days to receive patient fee debtors	60 days	24 days
Public and Private WIES activity performance to target	100%	86.2%
Adjusted current asset ratio	0.7 or 3% improvement from health service base target	1.08
Actual number of days available cash, measured on the last day of each month.	14 days	6.8 days
Variance between forecast and actual Net result from transactions (NRFT) for the current financial year ending 30 June.	Variance ≤ \$250,000	\$3.318m

FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

## SWAN HILL DISTRICT HEALTH

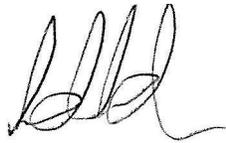

### Board member's, accountable officer's, and chief finance & accounting officer's declaration

The attached financial statements for Swan Hill District Health have been prepared in accordance with Direction 5.2 of the Standing Directions of the Assistant Treasurer under the *Financial Management Act 1994*, applicable Financial Reporting Directions, Australian Accounting Standards including Interpretations, and other mandatory professional reporting requirements.

We further state that, in our opinion, the information set out in the comprehensive operating statement, balance sheet, statement of changes in equity, cash flow statement and accompanying notes, presents fairly the financial transactions during the year ended 30 June 2021 and the financial position of Swan Hill District Health at 30 June 2021.

At the time of signing, we are not aware of any circumstances which would render any particulars included in the financial statements to be misleading or inaccurate.

We authorise the attached financial statements for issue on 29th of September 2021.

A. Gilchrist  
Board Chair

Swan Hill  
29 September 2021

P. Abraham  
Chief Executive Officer

Swan Hill

## Independent Auditor's Report

### To the Board of Swan Hill District Health

---

**Opinion** I have audited the financial report of Swan Hill District Health (the health service) which comprises the:

- balance sheet as at 30 June 2021
- comprehensive operating statement for the year then ended
- statement of changes in equity for the year then ended
- cash flow statement for the year then ended
- notes to the financial statements, including significant accounting policies
- board member's, accountable officer's and chief finance & accounting officer's declaration.

In my opinion the financial report presents fairly, in all material respects, the financial position of the health service as at 30 June 2021 and their financial performance and cash flows for the year then ended in accordance with the financial reporting requirements of Part 7 of the *Financial Management Act 1994* and applicable Australian Accounting Standards.

---

**Basis for Opinion** I have conducted my audit in accordance with the *Audit Act 1994* which incorporates the Australian Auditing Standards. I further describe my responsibilities under that Act and those standards in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report.

My independence is established by the *Constitution Act 1975*. My staff and I are independent of the health service in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Victoria. My staff and I have also fulfilled our other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

---

**Board's responsibilities for the financial report** The Board of the health service is responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards and the *Financial Management Act 1994*, and for such internal control as the Board determines is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Board is responsible for assessing the health service's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless it is inappropriate to do so.

---

---

**Auditor's responsibilities for the audit of the financial report**

As required by the *Audit Act 1994*, my responsibility is to express an opinion on the financial report based on the audit. My objectives for the audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the health service's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board
- conclude on the appropriateness of the Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the health service's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the health service to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

---

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 1 Basis of presentation

These financial statements represent the audited general purpose financial statements for Swan Hill District Health for the year ended 30 June 2021. The report provides users with information about Swan Hill District Health's stewardship of the resources entrusted to it.

This section explains the basis of preparing the financial statements and identifies the key accounting estimates and judgements.

### Note 1.1 Basis of preparation of the financial statements

These financial statements are general purpose financial statements which have been prepared in accordance with the *Financial Management Act 1994* and applicable Australian Accounting Standards, which include interpretations issued by the Australian Accounting Standards Board (AASB). They are presented in a manner consistent with the requirements of AASB 101 *Presentation of Financial Statements*.

The financial statements also comply with relevant Financial Reporting Directions (FRDs) issued by the Department of Treasury and Finance (DTF), and relevant Standing Directions (SDs) authorised by the Assistant Treasurer.

Swan Hill District Health is a not-for-profit entity and therefore applies the additional AUS paragraphs applicable to a "not-for-profit" health service under the Australian Accounting Standards. Australian Accounting Standards, set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Apart from the changes in accounting policies, standards, and interpretations as noted below, material accounting policies adopted in the preparation of these financial statements are the same as those adopted in the previous period.

Swan Hill District Health operates on a fund accounting basis and maintains three funds: Operating, Specific Purpose and Capital Funds.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs; modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

The financial statements have been prepared on a going concern basis (refer to Note 8.8 Economic Dependency).

The financial statements are in Australian dollars.

The amounts presented in the financial statements have been rounded to the nearest thousand dollars. Minor discrepancies in tables between totals and sum of components are due to rounding.

The annual financial statements were authorised for issue by the Board of Swan Hill District Health on 29th of September 2021.

### Note 1.2 Impact of COVID-19 pandemic

In March 2020 a state of emergency was declared in Victoria due to the global coronavirus pandemic, known as COVID-19. Since this date, to contain the spread of COVID-19 and prioritise the health and safety of our community, Swan Hill District Health was required to comply with various directions announced by the Commonwealth and State Governments, which in turn, has continued to impact the way in which Swan Hill District Health operates.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

#### Note 1.2 Impact of COVID-19 pandemic (continued)

Swan Hill District Health introduced a range of measures in both the prior and current year, including:

- introducing restrictions on non-essential visitors;
- greater utilisation of telehealth services;
- implementing reduced visitor hours;
- deferring elective surgery and reducing activity;
- administering COVID-19 vaccinations;
- performing COVID-19 testing; and
- implementing work from home arrangements where appropriate.

As restrictions have eased towards the end of the financial year, Swan Hill District Health has been able to revise some measures where appropriate.

Further information on the impacts of the pandemic are disclosed at:

Note 2: Funding delivery of our services.

Note 3: The cost of delivering services.

Note 4: Key Assets to support service delivery.

Note 5: Other Assets and Liabilities.

Note 6: How we finance our operations.

Note 8: Other Disclosures

#### Note 1.3 Abbreviations and terminology used in the financial statements

The following table sets out the common abbreviations used throughout the financial statements:

Reference	Title
AASB	Australian Accounting Standards Board
AASs	Australian Accounting Standards, which include Interpretations
DH	Department of Health
DTF	Department of Treasury and Finance
FMA	Financial Management Act 1994
FRD	Financial Reporting Direction
SD	Standing Direction
VAGO	Victorian Auditor General's Office
WIES	Weighted Inlier Equivalent Separation
SHDH	Swan Hill District Health

#### Note 1.4 Joint arrangements

Interests in joint arrangements are accounted for by recognising in Swan Hill District Health's financial statements, its share of assets and liabilities and any revenue and expenses of such joint arrangements.

Swan Hill District Health has the following joint arrangements:

- Loddon Mallee Rural Health Alliance

Details of the joint arrangements are set out in Note 8.7.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 1.5 Key accounting estimates and judgements

Management make estimates and judgements when preparing the financial statements.

These estimates and judgements are based on historical knowledge and best available current information and assume any reasonable expectation of future events. Actual results may differ.

Revisions to key estimates are recognised in the period in which the estimate is revised and also in future periods that are affected by the revision.

The accounting policies and significant management judgements and estimates used, and any changes thereto, are identified at the beginning of each section where applicable and are disclosed in further detail throughout the accounting policies.

### Note 1.6 Accounting standards issued but not yet effective

An assessment of accounting standards and interpretations issued by the AASB that are not yet mandatorily applicable to Swan Hill District Health and their potential impact when adopted in future periods is outlined below:

Standard	Adoption Date	Impact
AASB 17: <i>Insurance Contracts</i>	Reporting periods on or after 1 January 2023	Adoption of this standard is not expected to have a material impact.
AASB 2020-1: <i>Amendments to Australian Accounting Standards – Classification of Liabilities as Current or Non-Current</i>	Reporting periods on or after 1 January 2022.	Adoption of this standard is not expected to have a material impact.
AASB 2020-3: <i>Amendments to Australian Accounting Standards – Annual Improvements 2018-2020 and Other Amendments</i>	Reporting periods on or after 1 January 2022.	Adoption of this standard is not expected to have a material impact.
AASB 2020-8: <i>Amendments to Australian Accounting Standards – Interest Rate Benchmark Reform – Phase 2</i>	Reporting periods on or after 1 January 2021.	Adoption of this standard is not expected to have a material impact.

There are no other accounting standards and interpretations issued by the AASB that are not yet mandatorily applicable to Swan Hill District Health in future periods.

### Note 1.7 Goods and Services Tax (GST)

Income, expenses and assets are recognised net of the amount of GST, except where the GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables in the Balance Sheet are stated inclusive of the amount of GST. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the Balance Sheet.

Cash flows are included in the Cash Flow Statement on a gross basis, except for the GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the ATO, which are disclosed as operating cash flows.

Commitments and contingent assets and liabilities are presented on a gross basis.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

#### Note 1.8 Reporting Entity

The financial statements include all the activities of Swan Hill District Health.

Its principal address is:

48 Splatt Street  
Swan Hill, Victoria 3585

A description of the nature of Swan Hill District Health's operations and its principal activities is included in the report of operations, which does not form part of these financial statements.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 2 Funding delivery of our services

Swan Hill District Health's overall objective is to provide quality health services in the right setting by dedicated people with and for our community, as well as improve the quality of life to Victorians. Swan Hill District Health is predominantly funded by grant funding for the provisions of outputs. Swan Hill District Health also receives income from the supply of services.

#### Structure:

2.1 Income from Transactions

2.2 Fair value of assets and services received free of charge or for nominal consideration

#### Telling the COVID-19 story

Revenue recognised to fund the delivery of our services increased during the financial year which was partially attributable to the COVID-19 coronavirus pandemic.

Activity Based Funding decreased as the level of activity agreed in the Statement of Priorities couldn't be delivered due to reductions in the number of patients being treated at various times throughout the financial year.

This was offset by funding provided by the Department of Health to compensate for reductions in revenue and to cover certain direct and indirect COVID-19 related costs.

Funding provided included:

- COVID-19 grants to support our vulnerable communities, an isolation room, a High Risk Accommodation Response (HRAR), Commonwealth Home Support Program and Healthcare worker wellbeing;
- Local public health unit (LPHU) funding to support our vaccination clinic; and
- COVID-19 funding to support our GP Respiratory Testing Clinic.

Swan Hill District Health also received essential personal protective equipment free of charge under the state supply arrangement.

#### This section contains the following key judgements and estimates:

Key judgements and estimates	Description
Identifying performance obligations	Swan Hill District Health applies significant judgement when reviewing the terms and conditions of funding agreements and contracts, to determine whether they contain sufficiently specific and enforceable performance obligations.  If this criteria is met, the contract/funding agreement is treated as a contract with a customer, requiring Swan Hill District Health to recognise revenue as or when the health service transfers promised goods or services to customers.  If this criteria is not met, funding is recognised immediately in the net result from operations.
Determining the timing of revenue recognition	Swan Hill District Health applies significant judgement to determine when a performance obligation has been satisfied and the transaction price that is to be allocated to each performance obligation. A performance obligation is either satisfied at a point in time or over time.
Determining the time of capital grant income recognition	Swan Hill District Health applies significant judgement to determine when its obligation to construct an asset is satisfied. Costs incurred is used to measure the health service's progress as this is deemed to be the most accurate reflection of the stage of completion.

## Swan Hill District Health

<b>Total income from non-operating activities</b>	<b>712</b>	<b>905</b>
<b>Total revenue and income from transactions</b>	<b>81,573</b>	<b>77,384</b>

<sup>(i)</sup> Commercial activities represent business activities which the health service enter into to support their operations.

#### How we recognise revenue and income from transactions

##### Government operating grants

To recognise revenue, Swan Hill District Health assesses whether there is a contract that is enforceable and has sufficiently specific performance obligations in accordance with AASB 15: *Revenue from Contracts with Customers*.

When both these conditions are satisfied, the health service:

- Identifies each performance obligation relating to the revenue
- recognises a contract liability for its obligations under the agreement
- recognises revenue as it satisfied its performance obligations, at the time or over time when services are rendered.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 2.1 Revenue and income from transactions (continued)

Where the contract is not enforceable and/or does not have sufficiently specific performance obligations, in accordance with AASB 1058: Income for not for profit entities, the health service:

- recognises the asset received in accordance with the recognition requirements of other applicable Accounting Standards (for example, AASB 9, AASB 16, AASB 116 and AASB 138)
- recognises related amounts (being contributions by owners, lease liabilities, financial instruments, provisions, revenue or contract liabilities from a contract with a customer), and
- recognises income immediately in profit or loss as the difference between the initial carrying amount of the asset and the related amount.

The types of government grants recognised under AASB 15: *Revenue from Contracts with Customers* includes:

Government grant	Performance obligation
Activity Based Funding (ABF) paid as Weighted Inlier Equivalent Separation (WIES) casemix	<p>The performance obligations for ABF are the number and mix of patients admitted to hospital (defined as 'casemix') in accordance with the levels of activity agreed to, with the Department of Health in the annual Statement of Priorities.</p> <p>Revenue is recognised at a point in time, which is when a patient is discharged, in accordance with the WIES activity when an episode of care for an admitted patient is completed.</p> <p>WIES activity is a cost weight that is adjusted for time spent in hospital, and represents a relative measure of resource use for each episode of care in a diagnosis related group.</p>
Department of Health Grants linked to Statement of Priorities	<p>Funding is received from Department of Health that have performance obligations linked to the Statement of Priorities agreed upon between the health service and the Department of Health.</p> <p>The performance obligation is requirement to provide a stipulated number of service contacts or hours of service delivery.</p> <p>Revenue is recognised over time as the service is delivered.</p>
Commonwealth Residential Aged Care Grants	<p>Funding is provided for the provision of care for aged care residents within facilities at Swan Hill District Health.</p> <p>The performance obligations include provision of residential accommodations and care from nursing staff and personal care workers.</p> <p>Revenue is recognised at the point in time when the service is provided within the residential aged care facilities.</p>

### Capital grants

Where Swan Hill District Health receives a capital grant, it recognises a liability for the excess of the initial carrying amount of the financial asset received over any related amounts (being contributions by owners, lease liabilities, financial instruments, provisions, revenue or contract liabilities arising from a contract with a customer) recognised under other Australian Accounting Standards.

Income is recognised progressively as the asset is constructed which aligns with Swan Hill District Health's obligation to construct the asset. The progressive percentage of costs incurred is used to recognise income, as this most accurately reflects the stage of completion.

### Patient and resident fees

Patient and resident fees are charges that can be levied on patients for some services they receive. Patient and resident fees are recognised at a point in time when the performance obligation and the provision of services is satisfied, except where the patient and resident fees relate to accommodation charges. Accommodation charges are calculated daily and are recognised over time, to reflect the period accommodation is provided.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 2.1 Revenue and income from transactions (continued)

#### Commercial activities

Revenue from commercial activities includes items such as catering, cafeteria and property rental. Commercial activity revenue is recognised at a point in time, upon provision of the goods or service to the customer.

#### Non-cash contributions from the Department of Health and Human Services

The Department of Health and Human Services makes some payments on behalf of health services as follows:

- The Victorian Managed Insurance Authority non-medical indemnity insurance payments are recognised as revenue following advice from the Department of Health and Human Services.
- Long Service Leave (LSL) revenue is recognised upon finalisation of movements in LSL liability in line with the long service leave funding arrangements set out in the relevant Department of Health and Human Services Hospital Circular.

#### Fair value of assets and services received free of charge or for nominal consideration

Resources received free of charge or for nominal consideration are recognised at their fair value when the transferee obtains control over them, irrespective of whether restrictions or conditions are imposed over the use of the contributions, unless received from another Health Service or agency as a consequence of a restructuring of administrative arrangements. In the latter case, such transfer will be recognised at carrying amount. Contributions in the form of services are only recognised when a fair value can be reliably determined and the service would have been purchased if not received as a donation.

#### Other Income

Other income is recognised as revenue when received. Other income includes recoveries for Salaries and Wages and External Services Provided, Income from Cafeteria and Salary Packaging Fees. If donations are for a specific purpose, they may be appropriated to a surplus, such as the specific restricted purpose surplus.

#### Interest revenue

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield of the financial asset, which allocates interest over the relevant period.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 2.2 Fair value of assets and services received free of charge or for nominal consideration

	<b>Total 2021 \$'000</b>	<b>Total 2020 \$'000</b>
Plant and equipment	171	88
Personal protective equipment	372	77
<b>Total fair value of assets and services received free of charge or for nominal consideration</b>	<b>543</b>	<b>165</b>

#### How we recognise the fair value of assets and services received free of charge or for nominal consideration

##### Personal protective equipment

In order to meet the State of Victoria's health system supply needs during the COVID-19 pandemic, the purchasing of essential personal protective equipment (PPE) and other essential plant and equipment was centralised.

Generally, the State Supply Arrangement stipulates that Health Purchasing Victoria (trading as HealthShare Victoria) sources, secures and agrees terms for the purchase of PPE. The purchases are funded by the Department of Health, while Monash Health takes delivery and distributes an allocation of the products to health services. Swan Hill District Health received these resources free of charge and recognised them as income.

##### Contributions

Contributions of resources provided free of charge or for nominal consideration are recognised at their fair value when the recipient obtains control over the resources, irrespective of whether restrictions or conditions are imposed over the use of the contributions.

The exception to this would be when the resource is received from another Government Department (or agency) as a consequence of a restructuring of administrative arrangements, in which case such a transfer will be recognised at its carrying value in the transferring department or agency as a capital contribution transfer.

##### Voluntary Services

Contributions in the form of services are only recognised when a fair value can be reliably measured, and the services would have been purchased if not donated. Swan Hill District Health did not receive any volunteer services and does not depend on volunteers to deliver its services.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 3: The cost of delivering our services

This section provides an account of the expenses incurred by Swan Hill District Health in delivering services and outputs. In Section 2, the funds that enable the provision of services were disclosed and in this note the cost associated with provision of services are recorded.

#### Structure:

- 3.1 Expenses from Transactions
- 3.2 Employee Benefits in the Balance Sheet
- 3.3 Superannuation
- 3.4 Other economic flows included in net result

#### Telling the COVID-19 story

Expenses incurred to deliver our services increased during the financial year, which was partially attributable to the COVID-19 Coronavirus pandemic.

Additional costs were incurred to:

- implement COVID safe practices throughout Swan Hill District Health including increased cleaning, increased security, consumption of personal protective equipment provided as free of charge and increased staffing to support concierge screening stations;
- establish a vaccination clinic to administer vaccines to staff and the community contributing to an increase in employee expenses and additional equipment purchases;
- establish a GP Respiratory Testing Clinic including a drive-through COVID-19 testing site contributing to increased employee expenses and additional equipment purchases; and
- support our vulnerable communities, our Commonwealth Home Support Program and to provide a High Risk Accommodation Response (HRAR) resulting in increased employee expenses and equipment purchases.

#### Key judgements and estimates

This section contains the following key judgements and estimates:

Key judgements and estimates	Description
Measuring and classifying employee benefit liabilities	<p>Swan Hill District Health applies significant judgement when measuring and classifying its employee benefit liabilities.</p> <p>Employee benefit liabilities are classified as a current liability if Swan Hill District Health does not have an unconditional right to defer payment beyond 12 months. Annual leave, accrued days off and long service leave entitlements (for staff who have exceeded the minimum vesting period) fall into this category.</p> <p>Employee benefit liabilities are classified as a non-current liability if Swan Hill District Health has a conditional right to defer payment beyond 12 months. Long service leave entitlements (for staff who have not yet exceeded the minimum vesting period) fall into this category.</p> <p>The health service also applies judgement to determine when it expects its employee entitlements to be paid. With reference to historical data, if the health service does not expect entitlements to be paid within 12 months, the entitlement is measured at its present value. All other entitlements are measured at their nominal value.</p>

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

#### Note 3.1: Expenses from transactions (continued)

##### How we recognise expenses from transactions

##### Expense recognition

Expenses are recognised as they are incurred and reported in the financial year to which they relate.

##### Employee expenses

Employee expenses include:

- Salaries and wages (including fringe benefits tax, leave entitlements and termination payments);
- On-costs;
- Agency expenses;
- Fee for service medical officer expenses;
- Workcover premiums; and
- Superannuation expenses.

##### Supplies and consumables

Supplies and services costs which are recognised as an expense in the reporting period in which they are incurred. The carrying amounts of any inventories held for distribution are expensed when distributed.

##### Finance costs

Finance costs include:

- Interest on bank overdrafts and short-term and long-term borrowings (Interest expense is recognised in the period in which it is incurred).

##### Other operating expenses

Other operating expenses generally represent the day-to-day running costs incurred in normal operations and include such things as:

- Fuel, light and power;
- Repairs and maintenance;
- Other administrative expenses; and
- Expenditure for capital purposes (represents expenditure related to the purchase of assets that are below the capitalisation threshold of \$1,000).

The Department of Health and Human Services also makes certain payments on behalf of Swan Hill District Health. These amounts have been brought to account as grants in determining the operating result for the year by recording them as revenue and also recording the related expense.

##### Non-operating expenses

Other non-operating expenses generally represent expenditure for outside the normal operations such as depreciation and amortisation, and assets and services provided free of charge or for nominal consideration.

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 3.2 Employee benefits in the balance sheet

	2021 \$'000	2020 \$'000
<b>Current provisions</b>		
<i>Accrued days off</i>		
- Unconditional and expected to be settled wholly within 12 months <sup>(i)</sup>	120	123
	<b>120</b>	<b>123</b>
<i>Annual leave</i>		
- Unconditional and expected to be settled wholly within 12 months <sup>(i)</sup>	3,073	2,939
- Unconditional and expected to be settled wholly after 12 months <sup>(ii)</sup>	1,060	842
	<b>4,133</b>	<b>3,781</b>
<i>Long service leave</i>		
- Unconditional and expected to be settled wholly within 12 months <sup>(i)</sup>	879	963
- Unconditional and expected to be settled wholly after 12 months <sup>(ii)</sup>	4,563	4,121
	<b>5,442</b>	<b>5,084</b>
<i>Provisions related to employee benefit on-costs</i>		
- Unconditional and expected to be settled within 12 months <sup>(i)</sup>	455	444
- Unconditional and expected to be settled after 12 months <sup>(ii)</sup>	728	637
	<b>1,183</b>	<b>1,081</b>
<b>Total current employee benefits</b>	<b>10,878</b>	<b>10,069</b>
<b>Non-current provisions</b>		
Conditional long service leave <sup>(i)</sup>	1,500	1,480
Provisions related to employee benefit on-costs <sup>(ii)</sup>	195	189
<b>Total non-current employee benefits</b>	<b>1,695</b>	<b>1,669</b>
<b>Total employee benefits</b>	<b>12,573</b>	<b>11,739</b>

(i) The amounts disclosed are nominal amounts.

(ii) The amounts disclosed are discounted to present values.

### How we recognise employee benefits

#### Employee benefit recognition

Provision is made for benefits accruing to employees in respect of annual leave, accrued days off and long service leave for services rendered to the reporting date as an expense during the period the services are delivered.

#### Provisions

Provisions are recognised when Swan Hill District Health has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a liability is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

#### Note 3.2 Employee benefits in the balance sheet (continued)

##### Annual leave and accrued days off

Liabilities for annual leave and accrued days off are recognised in the provision for employee benefits as 'current liabilities' because Swan Hill District Health does not have an unconditional right to defer settlements of these liabilities.

Depending on the expectation of the timing of settlement, liabilities for annual leave and accrued days off are measured at:

- Nominal value – if Swan Hill District Health expects to wholly settle within 12 months; or
- Present value – if Swan Hill District Health does not expect to wholly settle within 12 months.

##### Long service leave

The liability for long service leave (LSL) is recognised in the provision for employee benefits.

Unconditional LSL is disclosed in the notes to the financial statements as a current liability, even where Swan Hill District Health does not expect to settle the liability within 12 months because it will not have the unconditional right to defer the settlement of the entitlement should an employee take leave within 12 months. An unconditional right arises after a qualifying period.

The components of this current LSL liability are measured at:

- Nominal value – if Swan Hill District Health expects to wholly settle within 12 months; or
- Present value – if Swan Hill District Health does not expect to wholly settle within 12 months.

Conditional LSL is disclosed as a non-current liability. Any gain or loss following revaluation of the present value of non-current LSL liability is recognised as a transaction, except to the extent that a gain or loss arises due to changes in estimations: e.g; bond rate movements, inflation rate movements and changes in probability factors which are then recognised as other economic flows.

##### Termination benefits

Termination benefits are payable when employment is terminated before the normal retirement date or when an employee decides to accept an offer of benefits in exchange for the termination of employment.

##### On-costs related to employee benefits

Provision for on-costs, such as payroll tax, workers compensation and superannuation are recognised separately from provisions for employee benefits.

Other	654	528	5	24
<b>Total</b>	<b>4,331</b>	<b>4,023</b>	<b>35</b>	<b>181</b>

(i) The basis for determining the level of contributions is determined by the various actuaries of the defined benefit

#### How we recognise superannuation

Employees of Swan Hill District Health are entitled to receive superannuation benefits and it contributes to both defined benefit and defined contribution plans.

#### Defined benefit superannuation plans

The defined benefit plan provides benefits based on years of service and final average salary. The amount charged to the Comprehensive Operating Statement in respect of defined benefit superannuation plans, represents the contributions made by Swan Hill District Health to the superannuation plans in respect of the services of current Swan Hill District Health's staff during the reporting period. Superannuation contributions are made to the plans based on the relevant rules of each plan and are based upon actuarial advice.

Swan Hill District Health does not recognise any unfunded defined benefit liability in respect of the plans because the health service has no legal or constructive obligation to pay future benefits relating to its employees; its only obligation is to pay superannuation contributions as they fall due.

The DTF discloses the State's defined benefits liabilities in its disclosure for administered items. However, superannuation contributions paid or payable for the reporting period are included as part of employee benefits in the Comprehensive Operating Statement of Swan Hill District Health.

The name, details and amounts that have been expensed in relation to the major employee superannuation funds and contributions made by Swan Hill District Health are disclosed above.

#### Defined contribution superannuation plans

In relation to defined contribution (i.e. accumulation) superannuation plans, the associated expense is simply the employer contributions that are paid or payable in respect of employees who are members of these plans during the reporting period. Contributions to defined contribution superannuation plans are expensed when incurred.

The name, details and amounts that have been expensed in relation to the major employee superannuation funds and contributions made by Swan Hill District Health are disclosed above.

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 3.4 Other economic flows

	2021 \$'000	2020 \$'000
Net gain/(loss) on disposal of property plant and equipment	116	(55)
<b>Total net gain/(loss) on non-financial assets</b>	<b>116</b>	<b>(55)</b>
Allowance for impairment losses of contractual receivables	(20)	(24)
<b>Total net gain/(loss) on financial instruments</b>	<b>(20)</b>	<b>(24)</b>
Net gain/(loss) arising from revaluation of long service liability	(96)	(239)
<b>Total other gains/(losses) from other economic flows</b>	<b>(96)</b>	<b>(239)</b>
<b>Total gains/(losses) from other economic flows</b>	<b>-</b>	<b>(318)</b>

#### How we recognise other economic flows

Other economic flows are changes in the volume or value of an asset or liability that do not result from transactions. Other gains/(losses) from other economic flows include the gains or losses from:

- The revaluation of the present value of the long service leave liability due to changes in the bond interest rates.

#### Net gain/(loss) on non-financial assets

Net gain/(loss) on non-financial assets and liabilities includes realised and unrealised gains and losses as follows:

- Revaluation gains/(losses) of non-financial physical assets (Refer to Note 4.1 Property plant and equipment); and
- net gain/(loss) on disposal of non-financial assets

Any gain or loss on the disposal of non-financial assets is recognised at the date of disposal.

#### Net gain/(loss) on financial instruments

Net gain/(loss) on financial instruments at fair value includes:

- realised and unrealised gains and losses from revaluations of financial instruments at fair value; and
- disposals of financial assets and derecognition of financial liabilities.

#### Other gains/(losses) from other economic flows

Other gains/(losses) include:

- the revaluation of the present value of the long service leave liability due to changes in the bond rate movements, inflation rate movements and the impact of changes in probability factors.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 4: Key Assets to support service delivery

Swan Hill District Health controls infrastructure and other investments that are utilised in fulfilling its objectives and conducting its activities. They represent the key resources that have been entrusted to the hospital to be utilised for delivery of those outputs.

#### Structure:

4.1 Property, Plant and Equipment

4.2 Depreciation

#### Telling the COVID-19 story

Assets used to support the delivery of our services during the financial year were not materially impacted by the COVID-19 coronavirus pandemic.

Key judgements and estimates	Description
Measuring fair value of property, plant and equipment	<p>Swan Hill District Health obtains independent valuations for its non-current assets at least once every five years.</p> <p>If an independent valuation has not been undertaken at balance date, the health service estimates possible changes in fair value since the date of the last independent valuation with reference to Valuer-General of Victoria indices.</p> <p>Managerial adjustments are recorded if the assessment concludes a material change in fair value has occurred. Where exceptionally large movements are identified, an interim independent valuation is undertaken.</p>
Estimating useful life and residual value of property, plant and equipment	<p>Swan Hill District Health assigns an estimated useful life to each item of property, plant and equipment, whilst also estimating the residual value of the asset, if any, at the end of the useful life. This is used to calculate depreciation of the asset.</p> <p>The health service reviews the useful life, residual value and depreciation rates of all assets at the end of each financial year and where necessary, records a change in accounting estimate.</p>
Estimating useful life of right-of-use assets	<p>The useful life of each right-of-use asset is typically the respective lease term, except where the health service is reasonably certain to exercise a purchase option contained within the lease (if any), in which case the useful life reverts to the estimated useful life of the underlying asset.</p> <p>Swan Hill District Health applies significant judgement to determine whether or not it is reasonably certain to exercise such purchase options.</p>
Identifying indicators of impairment	<p>At the end of each year, Swan Hill District Health assesses impairment by evaluating the conditions and events specific to the health service that may be indicative of impairment triggers. Where an indication exists, the health service tests the asset for impairment.</p> <p>The health service considers a range of information when performing its assessment, including considering:</p> <ul style="list-style-type: none"> <li>• If an asset's value has declined more than expected based on normal use;</li> <li>• If a significant change in technological, market, economic or legal environment which adversely</li> <li>• If an asset is obsolete or damaged;</li> <li>• If the asset has become idle or if there are plans to discontinue or dispose of the asset before the end of its useful life; and</li> <li>• If the performance of the asset is or will be worse than initially expected.</li> </ul> <p>Where an impairment trigger exists, the health service applies significant judgement and estimate to determine the recoverable amount of the asset.</p>

#### Land and Buildings and Leased Assets Carried at Valuation

The Valuer-General of Victoria undertook to re-value all of Swan Hill District Health's owned land and buildings to determine their fair value in May 2019 in accordance with the requirements of Financial Reporting Direction (FRD) 103H Non-Financial Physical Assets. The valuation, which conforms to Australian Valuation Standards, was determined by reference to the amounts for which assets could be exchanged between knowledgeable willing parties in an arm's length transaction. The effective date of the valuation for both land and buildings was 30 June 2019.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 4.1: Property, plant and equipment (continued)

#### Note 4.1 (b): Reconciliations of the carrying amounts of each class of asset (continued)

##### How we recognise property, plant and equipment

Property, plant and equipment are tangible items that are used by Swan Hill District Health in the supply of goods or services, for rental to others, or for administration purposes, and are expected to be used during more than one financial year.

##### Initial recognition

Items of property, plant and equipment (excluding right-of-use assets) are initially measured at cost. Where an asset is acquired for no or nominal cost, being far below the fair value of the asset, the deemed cost is its fair value at the date of acquisition. Assets transferred as part of an amalgamation/machinery of government change are transferred at their carrying amounts.

The cost of constructed non-financial physical assets includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

##### Subsequent measurement

Items of property, plant and equipment (excluding right-of-use assets) are subsequently measured at fair value less accumulated depreciation and impairment losses where applicable.

Fair value is determined with reference to the asset's highest and best use (considering legal or physical restrictions imposed on the asset, public announcements or commitments made in relation to the intended use of the asset).

Further information regarding fair value measurement is disclosed below.

##### Revaluation

Fair value is based on periodic valuations by independent valuers, which normally occur once every five years, based upon the asset's Government Purpose Classification, but may occur more frequently if fair value assessments indicate a material change in fair value has occurred.

Where an independent valuation has not been undertaken at balance date, Swan Hill District Health perform a managerial assessment to estimate possible changes in fair value of land and buildings since the date of the last independent valuation with reference to Valuer-General of Victoria (VGV) indices.

An adjustment is recognised if the assessment concludes that the fair value of land and buildings has changed by 10% or more since the last revaluation (whether that be the most recent independent valuation or managerial valuation). Any estimated change in fair value of less than 10% is deemed immaterial to the financial statements and no adjustment is recorded. Where the assessment indicates there has been an exceptionally material movement in the fair value of land and buildings since the last independent valuation, being equal to or in excess of 40%, Swan Hill District Health would obtain an interim independent valuation prior to the next scheduled independent valuation.

An independent valuation of Swan Hill District Health's property, plant and equipment was performed by the VGV on 30 June 2019. The valuation, which complies with Australian Valuation Standards, was determined by reference to the amount for which assets could be exchanged between knowledgeable willing parties in an arm's length transaction. The managerial assessment performed at 30 June 2021 indicated an overall:

- increase in fair value of land of 15.54% (\$649k)
- no change in fair value of buildings.

As the cumulative movement was less than 10% for buildings since the last revaluation a managerial revaluation adjustment was not required as at 30 June 2021.

As the cumulative movement was greater than 10% for land since the last revaluation a managerial revaluation adjustment was required as at 30 June 2021.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

#### Note 4.1: Property, plant and equipment (continued)

Revaluation increases (increments) arise when an asset's fair value exceeds its carrying amount. In comparison, revaluation decreases (decrements) arise when an asset's fair value is less than its carrying amount. Revaluation increments and revaluation decrements relating to individual assets within an asset class are offset against one another within that class but are not offset in respect of assets in different classes.

Revaluation increments are recognised in 'Other Comprehensive Income' and are credited directly to the asset revaluation reserve, except that, to the extent that an increment reverses a revaluation decrement in respect of that same class of asset previously recognised as an expense in net result, in which case the increment is recognised as income in the net result.

Revaluation decrements are recognised in 'Other Comprehensive Income' to the extent that a credit balance exists in the asset revaluation reserve in respect of the same class of property, plant and equipment. Otherwise, the decrement is recognised as an expense in the net result.

The revaluation reserve included in equity in respect of an item of property, plant and equipment may be transferred directly to retained earnings when the asset is derecognised.

#### Impairment

At the end of each financial year, Swan Hill District Health assesses if there is any indication that an item of property, plant and equipment may be impaired by considering internal and external sources of information. If an indication exists, Swan Hill District Health estimates the recoverable amount of the asset. Where the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognised. An impairment loss of a revalued asset is treated as a revaluation decrease as noted above.

Swan Hill District Health has concluded that the recoverable amount of property, plant and equipment which are regularly revalued is expected to be materially consistent with the current fair value. As such, there were no indications of property, plant and equipment being impaired at balance date.

#### How we recognise right-of-use assets

Where Swan Hill District Health enters a contract, which provides the health service with the right to control the use of an identified asset for a period of time in exchange for payment, this contract is considered a lease.

Unless the lease is considered a short-term lease or a lease of a low-value asset (refer to Note 6.1 for further information), the contract gives rise to a right-of-use asset and corresponding lease liability. Swan Hill District Health presents its right-of-use assets as part of property, plant and equipment as if the asset was owned by the health service.

Right-of-use assets and their respective lease terms include:

Class of right-of-use asset	Lease term
Leased medical equipment	1 to 5 years
Leased vehicles	1 to 3 years

#### Presentation of right-of-use assets

Swan Hill District Health presents right-of-use assets as 'property plant equipment' unless they meet the definition of investment property, in which case they are disclosed as 'investment property' in the balance sheet.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 4.1: Property, plant and equipment (continued)

#### Initial recognition

When a contract is entered into, Swan Hill District Health assesses if the contract contains or is a lease. If a lease is present, a right-of-use asset and corresponding lease liability is recognised. The definition and recognition criteria of a lease is disclosed at Note 6.1.

The right-of-use asset is initially measured at cost and comprises the initial measurement of the corresponding lease liability, adjusted for:

- any lease payments made at or before the commencement date;
- any initial direct costs incurred; and
- an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received.

Swan Hill District Health's motor vehicle and medical equipment lease agreements contain purchase options which the health service is not reasonably certain to exercise at the completion of the lease.

#### Subsequent measurement

Right-of-use assets are subsequently measured at cost, less accumulated depreciation and accumulated impairment losses where applicable. Right-of-use assets are also adjusted for certain remeasurements of the lease liability (for example, when a variable lease payment based on an index or rate becomes effective).

#### Impairment

At the end of each financial year, Swan Hill District Health assesses if there is any indication that a right-of-use asset may be impaired by considering internal and external sources of information. If an indication exists, Swan Hill District Health estimates the recoverable amount of the asset. Where the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognised.

Swan Hill District Health performed an impairment assessment and noted there were no indications of its right-of-use assets being impaired at balance date.

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 4.1: Property, plant and equipment (continued)

##### Note 4.1 (e): Fair value determination

Asset class	Likely valuation approach	Significant inputs (Level 3 only)
Non-Specialised Land	Market approach	n.a.
Specialised Land (Crown / Freehold)	Market approach	Community Service Obligations Adjustments <sup>(30%)</sup>
Non-Specialised Buildings	Market approach	n.a.
Specialised Buildings	Depreciated replacement cost approach	- Cost per square metre - Useful life
Dwellings	Depreciated replacement cost approach	- Cost per square metre - Useful life
Vehicles	Depreciated replacement cost approach	- Cost per unit - Useful life
Plant and Equipment	Depreciated replacement cost approach	- Cost per square metre - Useful life

There were no changes in valuation techniques throughout the period to 30 June 2021

#### How we measure fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

For the purpose of fair value disclosures, Swan Hill District Health has determined classes of assets on the basis of the nature, characteristics and risks of the asset and the level of the fair value hierarchy as explained above.

In addition, Swan Hill District Health determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

There have been no transfers between levels during the period.

The Valuer-General Victoria (VGV) is Swan Hill District Health's independent valuation agency.

The estimates and underlying assumptions are reviewed on an ongoing basis.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 4.1: Property, plant and equipment (continued)

#### Valuation Hierarchy

In determining fair values a number of inputs are used. To increase consistency and comparability in the financial statements, these inputs are categorised into three levels, also known as the fair value hierarchy. The levels are as follows:

- Level 1 – quoted (unadjusted) market prices in active markets for identical assets or liabilities;
- Level 2 – valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and
- Level 3 – valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

#### Identifying unobservable inputs (level 3) Fair Value Measurements

Level 3 fair value inputs are unobservable valuation inputs for an asset or liability. These inputs require significant judgement and assumptions in deriving fair value for both financial and non-financial assets.

Unobservable inputs are used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. However, the fair value measurement objective remains the same, i.e., an exit price at the measurement date from the perspective of a market participant that holds the asset or owes the liability. Therefore, unobservable inputs shall reflect the assumptions that market participants would use when pricing the asset or liability, including assumptions about risk.

#### Consideration of highest and best use (HBU) for Non-Financial Physical Assets

Judgements about highest and best use must take into account the characteristics of the assets concerned, including restrictions on the use and disposal of assets arising from the asset's physical nature and any applicable legislative/contractual arrangements.

In accordance with paragraph AASB 13 Fair Value Measurement paragraph 29, Swan Hill District Health has assumed the current use of a non-financial physical asset is its HBU, unless market or other factors suggest that a different use by market participants would maximise the value of the asset.

Theoretical opportunities that may be available in relation to the assets are not taken into account until it is virtually certain that any restrictions will no longer apply. Therefore, unless otherwise disclosed, the current use of these non-financial physical assets will be their highest and best use.

#### Non-specialised land and non-specialised buildings

Non-specialised land, non-specialised buildings and cultural assets are valued using the market approach. Under this valuation method, the assets are compared to recent comparable sales or sales of comparable assets which are considered to have nominal or no added improvement value.

For non-specialised land and non-specialised buildings, an independent valuation was performed by the Valuer-General Victoria to determine the fair value using the market approach. Valuation of the assets was determined by analysing comparable sales and allowing for share, size, topography, location and other relevant factors specific to the asset being valued. An appropriate rate per square metre has been applied to the subject asset. The effective date of the valuation is 30 June 2019.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

#### Note 4.1: Property, plant and equipment (continued)

##### Specialised land and specialised buildings

Specialised land includes Crown Land which is measured at fair value with regard to the property's highest and best use after due consideration is made for any legal or physical restrictions imposed on the asset, public announcements or commitments made in relation to the intended use of the asset. Theoretical opportunities that may be available in relation to the assets are not taken into account until it is virtually certain that any restrictions will no longer apply. Therefore, unless otherwise disclosed, the current use of these non-financial physical assets will be their highest and best use.

During the reporting period, Swan Hill District Health held Crown Land. The nature of this asset means that there are certain limitations and restrictions imposed on its use and/or disposal that may impact their fair value.

The market approach is also used for specialised land and specialised buildings although it is adjusted for the community service obligation (CSO) to reflect the specialised nature of the assets being valued. Specialised assets contain significant, unobservable adjustments; therefore these assets are classified as Level 3 under the market based direct comparison approach.

The CSO adjustment is a reflection of the valuer's assessment of the impact of restrictions associated with an asset to the extent that is also equally applicable to market participants. This approach is in light of the highest and best use consideration required for fair value measurement, and takes into account the use of the asset that is physically possible, legally permissible and financially feasible. As adjustments of CSO are considered as significant unobservable inputs, specialised land would be classified as Level 3 assets.

For Swan Hill District Health, the depreciated replacement cost method is used for the majority of specialised buildings, adjusting for the associated depreciation. As depreciation adjustments are considered as significant and unobservable inputs in nature, specialised buildings are classified as Level 3 for fair value measurements.

An independent valuation of Swan Hill District Health's specialised land and specialised buildings was performed by the Valuer-General Victoria. The effective date of the valuation is 30 June 2019.

##### Vehicles

Swan Hill District Health acquires new vehicles and at times disposes of them before completion of their economic life. The process of acquisition, use and disposal in the market is managed by the health service who set relevant depreciation rates during use to reflect the consumption of the vehicles. As a result, the fair value of vehicles does not differ materially from the carrying amount (depreciated cost).

##### Furniture, fittings, plant and equipment

Furniture, fittings, plant and equipment (including medical equipment, computers and communication equipment) are held at carrying amount (depreciated cost). When plant and equipment is specialised in use, such that it is rarely sold other than as part of a going concern, the depreciated replacement cost is used to estimate the fair value. Unless there is market evidence that current replacement costs are significantly different from the original acquisition cost, it is considered unlikely that depreciated replacement cost will be materially different from the existing carrying amount.

There were no changes in valuation techniques throughout the period to 30 June 2021.

Motor vehicles	44	61
Right of use - motor vehicles	57	2
Depreciation from jointly controlled operations	17	10
<b>Total depreciation</b>	<b>4,584</b>	<b>4,543</b>

#### How we recognise depreciation

All infrastructure assets, buildings, plant and equipment and other non-financial physical assets (excluding items under operating leases, assets held for sale, land and investment properties) that have finite useful lives are depreciated. Depreciation is generally calculated on a straight-line basis at rates that allocate the asset's value, less any estimated residual value over its estimated useful life.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest. Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the health service anticipates to exercise a purchase option, the specific right-of-use asset is depreciated over the useful life of the underlying asset.

	2021	2020
<b>Buildings</b>		
- Structure Shell Building Fabric	40 to 47 years	40 to 47 years
- Site Engineering Services and Central Plant	7 to 40 years	7 to 40 years
<b>Central Plant</b>

### Note 5: Other Assets and Liabilities

This section set out those assets and liabilities that arose from Swan Hill District Health's operations.

#### Structure:

- 5.1 Receivables
- 5.2 Payables
- 5.3 Other liabilities

#### Telling the COVID-19 story

The measurement of other assets and liabilities were not materially impacted during the financial year as a result of the COVID-19 Coronavirus pandemic.

#### Key judgements and estimates

This section contains the following key judgements and estimates:

Key judgements and estimates	Description
Estimating the provision for expected credit losses	Swan Hill District Health uses a simplified approach to account for the expected credit loss provision. A provision matrix is used, which considers historical experience, external indicators and forward-looking information to determine expected credit loss rates.
Measuring deferred capital grant income	Where Swan Hill District Health has received funding to construct an identifiable non-financial asset, such funding is recognised as deferred capital grant income until the underlying asset is constructed. Swan Hill District Health applies significant judgement when measuring the deferred capital grant income balance, which references the estimated stage of completion at the end of each financial year.
Measuring contract liabilities	Swan Hill District Health applies significant judgement to measure its progress towards satisfying a performance obligation as detailed in Note 2. Where a performance obligation is yet to be satisfied, the health service assigns funds to the outstanding obligation and records this as a contract liability until the promised good or service is transferred to the customer.

Amounts written off during the year	11	1
Increase in allowance	15	23
<b>Balance at the end of the year</b>	<b>27</b>	<b>23</b>

#### How we recognise receivables

Receivables consist of:

- **Contractual receivables**, which mostly includes debtors in relation to goods and services. These receivables are classified as financial instruments and categorised as 'financial assets at amortised costs'. They are initially recognised at fair value plus any directly attributable transaction costs. The health service holds the contractual receivables with the objective to collect the contractual cash flows and therefore they are subsequently measured at amortised cost using the effective interest method, less any impairment.
- **Statutory receivables**, which mostly includes amounts owing from the Victorian Government and Goods and Services Tax (GST) input tax credits that are recoverable. Statutory receivables do not arise from contracts and are recognised and measured similarly to contractual receivables (except for impairment), but are not classified as financial instruments for disclosure purposes. The health service applies AASB 9 for initial measurement of the statutory receivables and as a result statutory receivables are initially recognised at fair value plus any directly attributable transaction cost.

Trade debtors are carried at nominal amounts due and are due for settlement within 30 days from the date of recognition.

In assessing impairment of statutory (non-contractual) financial assets, which are not financial instruments, professional judgement is applied in assessing materiality using estimates, averages and other computational methods in accordance with AASB 136 Impairment of Assets.

Swan Hill District Health is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Trade receivables consist of a large number of customers in various geographical areas. Based on historical information about customer default rates, management consider the credit quality of trade receivables that are not past due or impaired to be good.

#### Impairment losses of contractual receivables

Refer to Note 7.1 (a) for Swan Hill District Health's contractual impairment losses.

## Swan Hill District Health

<b>Total payables and contract liabilities</b>	<b>4,529</b>	<b>4,631</b>

(i) Financial liabilities classified as payables and contract liabilities (Note 7.1(a))

Total payables and contract liabilities	4,529	4,631
Contract liabilities	(2,676)	(616)
Deposits	(2)	(1)
<b>Total financial liabilities</b>	<b>1,851</b>	<b>4,014</b>

#### How we recognise payables and contract liabilities

Payables consist of:

- **Contractual payables**, classified as financial instruments and measured at amortised cost. Accounts payable and salaries and wages payable represent liabilities for goods and services provided to Swan Hill District Health prior to the end of the financial year that are unpaid; and
- **Statutory payables**, that are recognised and measured similarly to contractual payables, but are not classified as financial instruments and not included in the category of financial liabilities at amortised cost, because they do not arise from contracts.

The normal credit terms for accounts payable are usually Net 60 days.

- Cash assets	6.2 11,572	10,572
<b>TOTAL</b>	<b>11,572</b>	<b>10,572</b>

#### How we recognise other liabilities

##### Refundable Accommodation Deposit ("RAD")/Accommodation Bond liabilities

RADs/accommodation bonds are non-interest-bearing deposits made by some aged care residents to the Health Service upon admission. These deposits are liabilities which fall due and payable when the resident leaves the home. As there is no unconditional right to defer payment for 12 months, these liabilities are recorded as current liabilities.

RAD/accommodation bond liabilities are recorded at an amount equal to the proceeds received, net of retention and any other amounts deducted from the RAD/accommodation bond in accordance with the Aged Care Act 1997.

##### Primary Care Partnership

Swan Hill District Health is the fund holder for the Southern Mallee Primary Care Partnership with the aim to bring local health and community service providers together to improve access to services and provide continuity of care to the community.

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 6: How we finance our operations

This section provides information on the sources of finance utilised by Swan Hill District Health during its operations, along with interest expenses (the cost of borrowings) and other information related to financing activities of the hospital.

This section includes disclosures of balances that are financial instruments (such as borrowings and cash balances). Note: 7.1 provides additional, specific financial instrument disclosures.

#### Structure:

- 6.1 Borrowings
- 6.2 Cash and Cash Equivalents
- 6.3 Commitments for Expenditure
- 6.4 Non-Cash Financing and Investing Activities

#### Telling the COVID-19 story

Our finance and borrowing arrangements were not materially impacted by the COVID-19 coronavirus pandemic because the health service's response was funded by Government.

#### Key judgements and estimates

This section contains the following key judgements and estimates:

Key judgements and estimates	Description
Determining if a contract is or contains a lease	Swan Hill District Health applies significant judgement to determine if a contract is or contains a lease by considering if the health service: <ul style="list-style-type: none"><li>• has the right-to-use an identified asset;</li><li>• has the right to obtain substantially all economic benefits from the use of the leased asset; and</li><li>• can decide how and for what purpose the asset is used throughout the lease.</li></ul>
Determining if a lease meets the short-term or low value asset lease exemption	Swan Hill District Health applies significant judgement when determining if a lease meets the short-term or low value lease exemption criteria. The health service estimates the fair value of leased assets when new. Where the estimated fair value is less than \$10,000, the health service applies the low-value lease exemption. The health service also estimates the lease term with reference to remaining lease term and period that the lease remains enforceable. Where the enforceable lease period is less than 12 months the health service applies the short-term lease exemption.
Discount rate applied to future lease payments	Swan Hill District Health discounts its lease payments using the interest rate implicit in the lease. If this rate cannot be readily determined, which is generally the case for the health service's lease arrangements, Swan Hill District Health uses its incremental borrowing rate, which is the amount the health service would have to pay to borrow funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.
Assessing the lease term	The lease term represents the non-cancellable period of a lease, combined with periods covered by an option to extend or terminate the lease if Swan Hill District Health is reasonably certain to exercise such options. Swan Hill District Health determines the likelihood of exercising such options on a lease-by-lease basis through consideration of various factors including: <ul style="list-style-type: none"><li>• If there are significant penalties to terminate (or not extend), the health service is typically reasonably certain to extend (or not terminate) the lease.</li><li>• If any leasehold improvements are expected to have a significant remaining value, the health service is typically reasonably certain to extend (or not terminate) the lease.</li><li>• The health service considers historical lease durations and the costs and business disruption to replace such leased assets.</li></ul>

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 6.1 Borrowings

	2021 \$'000	2020 \$'000
<b>Current borrowings</b>		
Lease liability <sup>(i)</sup>	90	5
Advances from government <sup>(ii)</sup>	33	-
<b>Total current borrowings</b>	<b>123</b>	<b>5</b>
<b>Non-current borrowings</b>		
Lease liability <sup>(i)</sup>	353	30
Advances from government <sup>(ii)</sup>	133	166
<b>Total non-current borrowings</b>	<b>486</b>	<b>196</b>
<b>Total borrowings</b>	<b>609</b>	<b>201</b>

(i) Secured by the assets leased.

(ii) These are secured loans which bear no interest.

#### How we recognise borrowings

Borrowings refer to interest bearing liabilities mainly raised from advances from the Treasury Corporation of Victoria (TCV) and other funds raised through lease liabilities.

#### Initial recognition

All borrowings are initially recognised at fair value of the consideration received, less directly attributable transaction costs. The measurement basis subsequent to initial recognition depends on whether Swan Hill District Health has categorised its liability as either 'financial liabilities designated at fair value through profit or loss', or financial liabilities at 'amortised cost'.

#### Subsequent measurement

Subsequent to initial recognition, interest bearing borrowings are measured at amortised cost with any difference between the initial recognised amount and the redemption value being recognised in the net result over the period of the borrowing using the effective interest method. Non-interest bearing borrowings are measured at 'fair value through profit or loss'.

#### Maturity analysis

Please refer to Note 7.2(c) for the maturity analysis of borrowings.

#### Defaults and breaches

During the current and prior year, there were no defaults of any of the loans.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 6.1 (a) Lease liabilities

Swan Hill District Health's lease liabilities are summarised below:

	2021	2020
	\$'000	\$'000
Total undiscounted lease liabilities	455	37
Less unexpired finance expenses	(12)	(2)
<b>Net lease liabilities</b>	<b>443</b>	<b>35</b>

The following table sets out the maturity analysis of lease liabilities, showing the undiscounted lease payments to be made after the reporting date.

	2021	2020
	\$'000	\$'000
Not later than one year	91	6
Later than 1 year and not later than 5 years	364	31
Later than 5 years	-	-
<b>Minimum lease payments</b>	<b>455</b>	<b>37</b>
Less future finance charges	(12)	(2)
<b>TOTAL</b>	<b>443</b>	<b>35</b>
<b>Included in the financial statements as:</b>		
Current Borrowings - lease liability	90	5
Non-Current Borrowings - lease liability	353	30
<b>TOTAL</b>	<b>443</b>	<b>35</b>

### How we recognise lease liabilities

A lease is defined as a contract, or part of a contract, that conveys the right for Swan Hill District Health to use an asset for a period of time in exchange for payment.

To apply this definition, Swan Hill District Health ensures the contract meets the following criteria:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to Swan Hill District Health and for which the supplier does not have substantive substitution rights;
- Swan Hill District Health has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract and Swan Hill District Health has the right to direct the use of the identified asset throughout the period of use; and
- Swan Hill District Health has the right to take decisions in respect of 'how and for what purpose' the asset is used throughout the period of use.

Swan Hill District Health's lease arrangements consist of the following:

Type of asset leased	Lease term
Leased equipment	3 years
Leased vehicles	3 years

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 6.1 (a) Lease liabilities (continued)

All leases are recognised on the balance sheet, with the exception of low value leases (less than \$10,000 AUD) and short term leases of less than 12 months. The following low value, short term and variable lease payments are recognised in profit or loss:

Type of payment	Description of payment	Type of leases captured
Low value lease payments	Leases where the underlying asset's fair value, when new, is no more than \$10,000	Computer Equipment

#### Separation of lease and non-lease components

At inception or on reassessment of a contract that contains a lease component, the lessee is required to separate out and account separately for non-lease components within a lease contract and exclude these amounts when determining the lease liability and right-of-use asset amount.

#### Initial measurement

The lease liabilities have been initially measured at the present value of the lease payments unpaid at the commencement date, discounted using the interest rate implicit in the lease if that rate is readily determinable or Swan Hill District Health's incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- Fixed payments (including in-substance fixed payments) less any lease incentive receivable;
- Variable payments based on an index or rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable under a residual value guarantee; and
- Payments arising from purchase and termination options reasonably certain to be exercised.

#### Subsequent measurement

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in subsequent fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the "right of use" asset is already reduced to zero.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 6.2 Cash and cash equivalents

	2021	2020
Note	\$'000	\$'000
Cash on hand (excluding monies held in trust)	1	1
Cash at bank (excluding monies held in trust)	225	643
Cash at bank - CBS (excluding monies held in trust)	10,281	9,219
Cash in jointly controlled operations	551	570
<b>Total cash held for operations</b>	<b>11,058</b>	<b>10,433</b>
Cash on hand (monies held in trust)	1	1
Cash at bank (monies held in trust)	420	338
Cash at bank - CBS (monies held in trust)	11,151	10,234
<b>Total cash held as monies in trust</b>	<b>11,572</b>	<b>10,573</b>
<b>Total cash and cash equivalents</b>	<b>7.1 (a) 22,630</b>	<b>21,006</b>

Swan Hill District Health has a bank overdraft facility with the NAB for the amount of \$1 million. The amount unused at 30 June 2021 was \$1 million.

#### How we recognise cash and cash equivalents

Cash and cash equivalents recognised on the balance sheet comprise cash on hand and cash at bank, deposits at call and highly liquid investments (with an original maturity of three months or less), which are held for the purpose of meeting short term cash commitments rather than for investment purposes, which are readily convertible to known amounts of cash with an insignificant risk of changes in value.

For cash flow statement presentation purposes, the cash flow statement includes monies held in trust.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 6.3 Commitments for expenditure

	2021 \$'000	2020 \$'000
<b>Capital expenditure commitments</b>		
Less than one year	2,447	2,495
<b>Total capital expenditure commitments</b>	<b>2,447</b>	<b>2,495</b>
<b>Other expenditure commitments</b>		
Computer	138	-
<b>Total other expenditure commitments</b>	<b>138</b>	<b>-</b>
<b>Total commitments for expenditure (exclusive of GST)</b>	<b>2,585</b>	<b>2,495</b>

Future lease payments are recognised on the balance sheet, refer to Note 6.1 Borrowings.

#### How we disclose our commitments

Our commitments relate to future capital expenditure.

#### Expenditure commitments

Commitments for future expenditure include capital commitments arising from contracts. These commitments are disclosed at their nominal value and are inclusive of the GST payable. In addition, where it is considered appropriate and provides additional relevant information to users, the net present values of significant projects are stated. These future expenditures cease to be disclosed as commitments once the related liabilities are recognised on the Balance Sheet.

#### Note 6.4 Non-cash financing and investing activities

	2021 \$'000	2020 \$'000
Acquisition of plant and equipment by means of Leases	464	37
<b>Total non-cash financing and investing activities</b>	<b>464</b>	<b>37</b>

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 7: Risks, Contingencies & Valuation Uncertainties

Swan Hill District Health is exposed to risk from its activities and outside factors. In addition, it is often necessary to make judgements and estimates associated with recognition and measurement of items in the financial statements. This section sets out financial instrument specific information, (including exposures to financial risks) as well as those items that are contingent in nature or require a higher level of judgement to be applied, which for the hospital is related mainly to fair value determination.

#### Structure:

- 7.1 Financial Instruments
- 7.2 Financial Risk Management Objectives and Policies
- 7.3 Contingent Assets and Contingent Liabilities

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 7.1 Financial Instruments

Financial instruments arise out of contractual agreements that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Due to the nature of Swan Hill District Health's activities, certain financial assets and financial liabilities arise under statute rather than a contract (for example, taxes, fines and penalties). Such financial assets and financial liabilities do not meet the definition of financial instruments in AASB 132 *Financial Instruments: Presentation*

#### Note 7.1 (a) Categorisation of financial instruments

		Financial Assets at Amortised Cost \$'000	Financial Liabilities at Amortised Cost \$'000	Total \$'000

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 7.1 (a): Financial Instruments (continued)

#### How we categorise financial instruments

##### Categories of financial assets

Financial assets are recognised when Swan Hill District Health becomes party to the contractual provisions to the instrument. For financial assets, this is at the date Swan Hill District Health commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified at fair value through net result, in which case transaction costs are expensed to profit or loss immediately.

Where available, quoted prices in an active market are used to determine the fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain a significant financing component or if the practical expedient was applied as specified in AASB 15 para 63.

##### Financial Assets at Amortised Cost

Financial assets are measured at amortised costs if both of the following criteria are met and the assets are not designated as fair value through net result:

- The assets are held by Swan Hill District Health to collect the contractual cash flows; and
- The assets' contractual terms give rise to cash flows that are solely payments of principal and interests on the principle amount outstanding on specific dates.

These assets are initially recognised at fair value plus any directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method less any impairment.

Swan Hill District Health recognises the following assets in this category:

- Cash and deposits; and
- Receivables (excluding statutory receivables).

##### Categories of financial liabilities

##### Financial liabilities at amortised cost

Financial liabilities are measured at amortised cost using the effective interest method, where they are not held at fair value through net result.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in net result over the relevant period. The effective interest is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

Swan Hill District Health recognises the following liabilities in this category:

- Payables (excluding statutory payables);
- Borrowings (including lease liabilities); and
- Accommodation bonds.

##### Offsetting financial instruments

Financial instrument assets and liabilities are offset and the net amount presented in the consolidated balance sheet when, and only when, Swan Hill District Health has a legal right to offset the amounts and intend either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Some master netting arrangements do not result in an offset of balance sheet assets and liabilities. Where Swan Hill District Health does not have a legally enforceable right to offset recognised amounts, because the right to offset is enforceable only on the occurrence of future events such as default, insolvency or bankruptcy, they are reported on a gross basis.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

#### Note 7.1 (a): Financial Instruments (continued)

##### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- Swan Hill District Health retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- Swan Hill District Health has transferred its rights to receive cash flows from the asset and either:
  - has transferred substantially all the risks and rewards of the asset; or
  - has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Where Swan Hill District Health has neither transferred nor retained substantially all the risks and rewards or transferred control, the asset is recognised to the extent of Swan Hill District Health's continuing involvement in the asset.

##### Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised as an 'other economic flow' in the comprehensive operating statement.

##### Reclassification of financial instruments

A financial asset is required to be reclassified between fair value, amortised cost, fair value through net result and fair value through other comprehensive income when, and only when, Swan Hill District Health's business model for managing its financial assets has changed such that its previous model would no longer apply.

A financial liability reclassification is not permitted.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 7.2 Financial risk management objectives and policies

As a whole, Swan Hill District Health's financial risk management program seeks to manage the risks and the associated volatility of its financial performance.

Details of the significant accounting policies and methods adopted, included the criteria for recognition, the basis of measurement, and the basis on which income and expenses are recognised, with respect to each class of financial asset, financial liability and equity instrument above are disclosed throughout the financial statements.

Swan Hill District Health's main financial risks include credit risk, liquidity risk, interest rate risk, foreign currency risk and equity price risk. Swan Hill District Health manages these financial risks in accordance with its financial risk management policy.

Swan Hill District Health uses different methods to measure and manage the different risks to which it is exposed. Primary responsibility for the identification and management of financial risks rests with the Accountable Officer.

#### Note 7.2 (a) Credit risk

Credit risk refers to the possibility that a borrower will default on its financial obligations as and when they fall due. Swan Hill District Health's exposure to credit risk arises from the potential default of a counter-party on their contractual obligations resulting in financial loss to Swan Hill District Health. Credit risk is measured at fair value and is monitored on a regular basis.

Credit risk associated with Swan Hill District Health's contractual financial assets is minimal because the main debtor is the Victorian Government. For debtors other than the Government, the health service is exposed to credit risk associated with patient and other debtors.

In addition, Swan Hill District Health does not engage in hedging for its contractual financial assets and mainly obtains contractual financial assets that are on fixed interest, except for cash and deposits, which are mainly cash at bank. As with the policy for debtors, Swan Hill District Health's policy is to only deal with banks with high credit ratings.

Provision of impairment for contractual financial assets is recognised when there is objective evidence that Swan Hill District Health will not be able to collect a receivable. Objective evidence includes financial difficulties of the debtor, default payments, debtors that are more than 60 days overdue, and changes in debtor credit ratings.

Contract financial assets are written off against the carrying amount when there is no reasonable expectation of recovery. Bad debt written off by mutual consent is classified as a transaction expense. Bad debt written off following a unilateral decision is recognised as other economic flows in the net result.

Except as otherwise detailed in the following table, the carrying amount of contractual financial assets recorded in the financial statements, net of any allowances for losses, represents Swan Hill District Health's maximum exposure to credit risk without taking account of the value of any collateral obtained.

There has been no material change to Swan Hill District Health's credit risk profile in 2020-21.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 7.2 (a) Credit risk (continued)

##### Impairment of financial assets under AASB 9

Swan Hill District Health records the allowance for expected credit loss for the relevant financial instruments applying AASB 9's Expected Credit Loss approach. Subject to AASB 9, impairment assessment includes the health service's contractual receivables and its investment in debt instruments.

Credit loss allowance is classified as other economic flows in the net result. Contractual receivables are written off when there is no reasonable expectation of recovery and impairment losses are classified as a transaction expense. Subsequent recoveries of amounts previously written off are credited against the same line item.

##### Contractual receivables at amortised cost

Swan Hill District Health applies AASB 9's simplified approach for all contractual receivables to measure expected credit losses using a lifetime expected loss allowance based on the assumptions about risk of default and expected loss rates. Swan Hill District Health has grouped contractual receivables on shared credit risk characteristics and days past due and select the expected credit loss rate based on Swan Hill District Health's past history, existing market conditions, as well as forward looking estimates at the end of the financial year.

On this basis, Swan Hill District Health determines the closing loss allowance at the end of the financial year as follows:

		<i>Less than</i>	<i>1–3</i>	<i>3 months</i>		
<b>30 June 2021</b>	<i>Current</i>	<i>1 month</i>	<i>months</i>	<i>–1 year</i>	<i>1–5</i>	<i>Total</i>
<b>Expected loss rate</b>	0%	0%	0%	50%	0%	
Gross carrying amount of contractual receivables (\$'000s)	843	159	80	163	-	<b>1,244</b>
<b>Loss allowance (\$000)</b>	-	-	-	<b>27</b>	-	<b>27</b>

		<i>Less than</i>	<i>1–3</i>	<i>3 months</i>		
<b>30 June 2020</b>	<i>Current</i>	<i>1 month</i>	<i>months</i>	<i>–1 year</i>	<i>1–5 years</i>	<i>Total</i>
<b>Expected loss rate</b>	0%	0%	0%	50%	0%	
Gross carrying amount of contractual receivables (\$'000s)	518	60	87	349	-	<b>1,014</b>
<b>Loss allowance (\$000)</b>	-	-	-	<b>23</b>	-	<b>23</b>

##### Statutory Receivables at Amortised Cost

Swan Hill District Health's non-contractual receivables arising from statutory requirements are not financial instruments. However, they are nevertheless recognised and measured in accordance with AASB 9 requirements as if those receivables are financial instruments.

The statutory receivables are considered to have low credit risk, taking into account the counter-party's credit rating, risk of default and capacity to meet contractual cash flow obligations in the near term. As the result, the loss allowance recognised for these financial assets during the period was limited to 12 months expected losses.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 7.2 (b) Liquidity risk

Liquidity risk arises from being unable to meet financial obligations as they fall due.

Swan Hill District Health is exposed to liquidity risk mainly through the financial liabilities as disclosed in the face of the balance sheet and the amounts related to financial guarantees. The health service manages its liquidity risk by:

- close monitoring of its short-term and long-term borrowings by senior management, including monthly reviews on current and future borrowing levels and requirements
- maintaining an adequate level of uncommitted funds that can be drawn at short notice to meet its short-term obligations
- careful maturity planning of its financial obligations based on forecasts of future cash flows.

Swan Hill District Health's exposure to liquidity risk is deemed insignificant based on prior periods' data and current assessment of risk. Cash for unexpected events is generally sourced from liquidation of investments and other financial assets.

The following table discloses the contractual maturity analysis for Swan Hill District Health's financial liabilities. For interest rates applicable to each class of liability refer to individual notes to the financial statements.

		Maturity Dates					
	Note	Carrying Amount \$'000	Nominal amount \$'000	Less than 1 Month \$'000	1-3 Months \$'000	3 Months- 1 Year \$'000	1-5 Years \$'000

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### Note 7.2 (c) Market Risk

Swan Hill District Health's exposures to market risk are primarily through interest rate risk. Objectives, policies and processes used to manage this risk are disclosed below.

#### Sensitivity disclosure analysis and assumptions

Swan Hill district Health's sensitivity to market risk is determined based on the observed range of actual historical data for the preceding five-year period. Swan Hill District Health's fund managers cannot be expected to predict movements in market rates and prices. The following movements are 'reasonably possible' over the next 12 months:

- a change in interest rate of 1% up or down.

#### Interest rate risk

Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. Swan Hill District Health does not hold any interest-bearing financial instruments that are measured at fair value, and therefore has no exposure to fair value interest rate risk.

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Swan Hill District Health has minimal exposure to cash flow interest rate risks through cash and deposits.

### Note 7.3 Contingent Assets and Contingent Liabilities

At the date of this report the Board are not aware of any Contingent Assets or Contingent Liabilities.

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

### Note 8.3 Remuneration of executives

The number of executive officers, other than Ministers and Accountable Officers, and their total remuneration during the reporting period are shown in the table below. Total annualised employee equivalent provides a measure of full time equivalent executive officers over the reporting period.

#### Remuneration of executive officers

(including Key Management Personnel disclosed in Note 8.4)

	Total Remuneration	
	2021 \$'000	2020 \$'000
Short-term benefits	1,022	920
Post-employment benefits	93	92
Other long-term benefits	16	148
Termination benefits	-	233
<b>Total remuneration <sup>(i)</sup></b>	<b>1,131</b>	<b>1,393</b>
<b>Total number of executives</b>	<b>6</b>	<b>7</b>
<b>Total annualised employee equivalent <sup>(ii)</sup></b>	<b>5</b>	<b>5</b>

<sup>(i)</sup> The total number of executive officers includes persons who meet the definition of Key Management Personnel (KMP) of Swan Hill District Health under AASB 124 Related Party Disclosures and are also reported within Note 8.4 Related Parties.

<sup>(ii)</sup> Annualised employee equivalent is based on working 38 ordinary hours per week over the reporting period.

Remuneration comprises employee benefits in all forms of consideration paid, payable or provided in exchange for services rendered, and is disclosed in the following categories.

#### Short-Term Employee Benefits

Salaries and wages, annual leave or sick leave that are usually paid or payable on a regular basis, as well as non-monetary benefits such as allowances and free or subsidised goods or services.

#### Post-Employment Benefits

Pensions and other retirement benefits (such as superannuation guarantee contributions) paid or payable on a discrete basis when employment has ceased.

#### Other Long-term Benefits

Long service leave, other long-service benefit or deferred compensation.

#### Termination Benefits

Termination of employment payments, such as severance packages.

## Swan Hill District Health

### Notes to the Financial Statements For the Financial Year Ended 30 June 2021

#### Note 8.4: Related Parties

Swan Hill District Health is a wholly owned and controlled entity of the State of Victoria. Related parties of the Health Service include:

- All key management personnel (KMP) and their close family members and personal business interests;
- Cabinet ministers (where applicable) and their close family members;
- Jointly Controlled Operation - A member of the LMRHA Alliance; and
- All hospitals and public sector entities that are controlled and consolidated into the State of Victoria financial statements.

KMPs are those people with the authority and responsibility for planning, directing and controlling the activities of Swan Hill District Health, directly or indirectly.

#### Key management personnel

The Board of Directors and the Executive Directors of Swan Hill District Health are deemed to be KMPs.

Entity	KMPs	Position Title
Swan Hill District Health	Mr A. Gilchrist	Chair of the Board
Swan Hill District Health	Mr G. Kuchel	Deputy Chair
Swan Hill District Health	Ms J. Wiggins	Board Member
Swan Hill District Health	Ms A. Patney	Board Member
Swan Hill District Health	A/Prof D. Colville	Board Member
Swan Hill District Health	Ms E. Liepa	Board Member
Swan Hill District Health	Ms J. Kelly	Board Member
Swan Hill District Health	Mrs C. Bourne	Board Member
Swan Hill District Health	Mr P. Abraham	Chief Executive Officer
Swan Hill District Health	Ms K. Bennetts	Director of Corporate Business
Swan Hill District Health	Mr P. Smith	Director of Primary Care Services
Swan Hill District Health	Mrs C. Keogh	Director of Clinical Services
Swan Hill District Health	Mr R. Prabhu	Director of Medical Services
Swan Hill District Health	Mr R. Karunanantham <sup>(i)</sup>	Director of Finance (CFO)
Swan Hill District Health	Ms C. Bailey <sup>(ii)</sup>	Acting Director of Finance (CFO)

<sup>(i)</sup> Ragul Karun ceased employment in June 2021.

<sup>(ii)</sup> Cherie Bailey commenced as Acting Director of Finance (CFO) June 2021.

The compensation detailed below excludes the salaries and benefits the Portfolio Ministers receive. The Minister's remuneration and allowances is set by the Parliamentary Salaries and Superannuation Act 1968 and is reported within the Department of Parliamentary Services' Financial Report.

### Note 8.4: Related Parties (continued)

#### Compensation - KMPs

	2021	2020
	\$'000	\$'000
Short-term benefits	1,396	1,297
Post-employment benefits	109	113
Other long-term benefits	37	148
Termination benefits	-	233
<b>Total <sup>(i)</sup></b>	<b>1,542</b>	<b>1,791</b>

(i) KMPs are also reported in Note 8.2 Responsible Persons and Note 8.3 Remuneration of Executives.

### Significant Transactions with Government Related Entities

Swan Hill District Health received funding from the Department of Health of \$55,051,763 (2020: \$50,922,567).

Expenses incurred by Swan Hill District Health in delivering services and outputs are in accordance with Health Purchasing Victoria requirements. Goods and services including procurement, diagnostics, patient meals and multi-site operational support are provided by other Victorian Health Service Providers on commercial terms.

Professional medical indemnity insurance and other insurance products are obtained from the Victorian Managed Insurance Authority.

The Standing Directions of the Assistant Treasurer require Swan Hill District Health to hold cash (in excess of working capital) in accordance with the State of Victoria's centralised banking arrangements. All borrowings are required to be sourced from Treasury Corporation Victoria unless an exemption has been approved by the Minister for Health and the Treasurer.

### Transactions with KMPs and other related parties

Given the breadth and depth of State government activities, related parties transact with the Victorian public sector in a manner consistent with other members of the public e.g. stamp duty and other government fees and charges. Further employment of processes within the Victorian public sector occur on terms and conditions consistent with the *Public Administration Act 2004* and Codes of Conduct and Standards issued by the Victorian Public Sector Commission. Procurement processes occur on terms and conditions consistent with the HealthShare Victoria and Victorian Government Procurement Board requirements.

Outside of normal citizen type transactions with Swan Hill District Health, there were no related party transactions that involved key management personnel, their close family members or their personal business interests. No provision has been required, nor any expense recognised, for impairment of receivables from related parties. There were no related party transactions with Cabinet Ministers required to be disclosed in 2021 (2020: none).

There were no related party transactions required to be disclosed for the Swan Hill District Health Board of Directors, Chief Executive Officer and Executive Directors in 2021 (2020: none).

<b>Net Result for the year</b>	<b>133</b>	<b>(21)</b>

### Contingent liabilities and capital commitments

Loddon Mallee Rural Health Alliance does not have any known contingent liabilities or capital commitments at 30th June 2021.

# Swan Hill District Health

## Notes to the Financial Statements For the Financial Year Ended 30 June 2021

---

### **Note 8.8: Economic Dependency**

Swan Hill District Health is dependent on the Department of Health for the majority of its revenue used to operate the entity. At the date of this report, the Board of Directors has no reason to believe the Department of Health and Human Services will not continue to support Swan Hill District Health.

### **Note 8.9 Equity**

#### **Contributed capital**

Contributions by owners (that is, contributed capital and its repayment) are treated as equity transactions and, therefore, do not form part of the income and expenses of Swan Hill District Health.

Transfers of net assets arising from administrative restructurings are treated as distributions to or contributions by owners. Transfers of net liabilities arising from administrative restructurings are treated as distributions to owners.

Other transfers that are in the nature of contributions or distributions or that have been designated as contributed capital are also treated as contributed capital.

#### **Restricted Specific Purpose Reserve**

The specific restricted purpose reserve is established where Swan Hill District Health has possession or title to the funds but has no discretion to amend or vary the restriction and/or condition underlying the funds received.
