

Program/Service Bookings

The Swan Hill District Health's **Women's Clinic** was established in 1996. Our mission is to provide holistic health care throughout a woman's entire life cycle.

The Women's Clinic offers a comprehensive women's health service in a sensitive, confidential and welcoming environment.

Qualified sexual and reproductive health nurses facilitate the Clinic. The nurses are highly skilled and have a strong understanding of sexual health issues, and are aware of the variety of concerns that can affect our sexual health and general wellbeing. This service is complimentary to the care your GP provides.

We welcome all women

Free interpreter services are available for non-English speaking women.
