

# Patient Journey to Cessation Support

Patient presents to Swan Hill District Health

Patient will be provided with the Smoke & Vape Free Patient Information brochure

A health practitioner will ask the patient about their current smoking status to understand how to best support them not to smoke during their visit

If the patient is currently smoking or vaping Nicotine Replacement Therapy will be offered

Upon admission into care and at discharge from the health service the patient will be offered Quit support

The patient can be referred to CRC if they need support navigating cessation services
